AMWAY PRODUCT FACTS

DISH DROPS™ CONCENTRATED DISHWASHING LIQUID

Dish Drops Concentrated Dishwashing Liquid has a more neutral PH compared to that of other competitor brands making it more safe and gentle on skin.

Most of the active ingredients found in our Dish Drops formula are derived from natural sources. It contains our biodegradable BIOQUEST™ Formula that is dermatologist tested and features a triple-patented blend of aloe vera, citric acid, and natural extracts of the shiso plant to help maintain healthy skin.

1L of Dish Drops Concentrated Dishwashing Liquid can wash more than 30,000 plates.

Only 3ml of Dish Drops Concentrated Dishwashing Liquid is required to fill a full sink of washing. That means, just 1L of Dish Drops makes up to 5L of dishwashing solution, equivalent to 200 medium sinks full of washing up. Now that's great value for money!

Dish Drops Concentrated Dishwashing Liquid is more efficient in breaking down oil compared to competitor products, even when diluted with water.

Just a few highly concentrated drops are powerful enough to easily get rid of grease and dried-on messes to leave dishes sparkling while being especially kind to your skin. It also washes away clean, leaving no harmful residues on your plates/cookware.

AMWAY PRODUCT FACTS

Features & Benefits

- Contains our biodegradable BIOQUEST™ formula to ensure that it is safe on the environment.
- Gentle on hands due to its unique blend of aloe vera and coconut-based ingredients with moisturising agents.
- Powerful formula effectively cuts through heavy grease, even when diluted with water.
- Long-lasting sudsing action that leaves dishes sparkling clean.
- Highly concentrated to help you save on your household budgets.

“Wash up to 30,000 plates with 1 bottle”

Are you getting the best wash from your dishwashing detergent? What would you say if I told you that just 1 litre of AMWAY Home Dish Drops Concentrated Dishwashing Liquid can wash up to 30,000 plates?

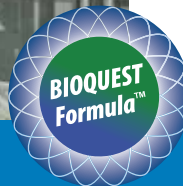

As with all AMWAY Home products, Dish Drops Concentrated Dishwashing Liquid is a concentrated product that allows you to wash more with less product. Just 3mL of Dish Drops can wash all the dishes in a standard sink!

Not only do you get more dishes washed per bottle, Dish Drops Concentrated Dishwashing Liquid is also able to cut through even the dirtiest of dishes. In fact, it is more efficient in breaking down oil compared to competitor products.

Incredible cleaning power and made with natural ingredients including aloe vera, citric acid, and natural extracts of the shiso plant to ensure it is safe on your skin and the environment.

Make short work of your dishwashing with AMWAY Home Dish Drops.

Amway HOME® Product Expert

The Power Of BIOQUEST®

The BIOQUEST FORMULA logo printed on the front of AMWAY HOME product packages means that the contents contain unique formulas consisting of highly-active, bio-based ingredients from natural resources, such as coconuts, citrus fruits and minerals.

You can feel assured that each time you buy a BIOQUEST FORMULA product that you are getting not only powerful cleaning performance but far more. You are getting products that are:

BIODEGRADABLE

This means when our detergent flows into drains it will decompose and disappear a lot quicker than most competitors. You can take comfort in knowing that none of the AMWAY HOME product range is dangerous or harmful to the environment.

CONCENTRATED

Did you know that a 3 kg box of SA8 Premium Concentrated Laundry Powder Detergent washes 10,800 socks, enough to stretch 3 km if laid end to end! This means more applications for you and less packaging to harm the environment.

DERMATOLOGIST TESTED

Tested by a dermatologist to ensure that it is kind on skin and leaves no harmful residues that may irritate the skin.
