NUTRIWAY® Omega-3 Complex

VS-2127 Amount: 90 capsules (Supply 15-30 days)

- NUTRIWAY Omega-3 Complex is a natural fish oil supplement in a soft, gelatin capsule.
- NUTRIWAY Omega-3 Complex combines a balanced formula of essential fatty acids from three wild, deep cold water fish such as menhaden, sardines and anchovies.

Why NUTRIWAY Omega-3 Complex?

Many people don't get enough EPA[^] and DHA^{^^} which are important constituents of Omega-3 fatty acids. Through diet alone, these essential Omega-3 fatty acids are often less than what we each really need. The right levels of Omega-3 essential fatty acids can assist in:

- Early child development.
- Maintaining normal blood cholesterol levels and a healthy heart.
- Preserving the stability and fluidity of cell membranes.
- Maintaining structural integrity of the cell membranes.
- Providing temporary relief from the pain of arthritis.
- Suppressing joint inflammation associated with arthritis.

[^]Eicosapentaenoic Acid (EPA) ^{^^}Docosahexaenoic Acid (DHA)

Who should use NUTRIWAY Omega-3 Complex?

Anyone who:

- Is not eating foods rich in Omega-3 fatty acids (ocean fish such as tuna, salmon and sardines, leafy vegetables, canola oil, soy bean oil and walnuts).
- Is on a diet with reduced dietary fat, increased consumption of fibre-rich foods and regular exercise.
- Wants to maintain normal cholesterol levels and a healthy heart.
- Suffers from arthritis and may be looking for support.
- Is pregnant or may be looking for support during breastfeeding. DHA, an Omega-3 compound, plays a unique role in the formation and function of a baby's eyesight and brain development.

How NUTRIWAY® Omega-3 Complex Compares

Harvested from the deep, cold oceans around the world:

The fish used to create the NUTRIWAY Omega-3 Complex supplement are NOT farmed and have been identified as excellent sources of DHA and EPA.

Three varieties of exotic, deep, cold water fish:

NUTRIWAY Omega-3 Complex supplement combines a balanced formula of essential fatty acids from three deep, cold water fish – menhaden, sardines and anchovies.

No fishy taste:

No unpleasant fishy after-taste making it the perfect Omega-3 supplement.

Great for heart health:

Utilises the benefits of EPA (eicosapentaenoic acid) and DHA (docosahexanoic acid) that may help to maintain normal blood cholesterol and a healthy heart in healthy individuals.

Highly concentrated formula:

Each capsule has Omega-3 equivalent to 90g of salmon.*

Rigorous testing processes:

Each NUTRIWAY Omega-3 Complex capsule also contains naturally sourced vitamin E, to prevent oxidation.

World's best quality:

Only premium quality raw materials ensure that each product delivers the optimal levels of valuable nutrients.

The best science:

More than 100 scientists, chemists, botanists, microbiologists, pharmacists, dietitians and nutritionists are dedicated to creating the best supplements possible.

- ✓ Naturally-sourced vitamin E is added to help prevent oxidation of Omega-3 fatty acids.
- ✓ No artificial colours or preservatives make it especially suitable for those who want high quality ingredients.
- ✓ No added dairy, gluten, yeast, sugars or lactose.
- ✓ High quality fish oil which complies with GOED monograph.**

USAGE GUIDE

Adults: Take up to six capsules a day. Pregnant women should take at least three but no more than six capsules a day.

Children: 6 to 12 years, take one capsule per day. For children younger than 6 years, consult your healthcare professional.

*That's 180mg of EPA and 120mg of DHA
