PLANT SCIENCE BREAKS NEW GROUND

Determined to elevate beauty to a level never before achieved, ARTISTRY® scientists began their quest for the catalyst that could prompt a regeneration of skin's youthful beauty. Consulting with a global leader in plant science and research, over 300 plants from every corner of the world were meticulously evaluated until a precious and powerful "youth source" was discovered – the Gardenia Grandiflora.

UNPRECEDENTED RESULTS

With the next generation ARTISTRY® Supreme LX™ formulas, skin is energised and protected by environmental aggressors. By night, skin's appearance is replenished and renewed. Now, skin is empowered to act up to an astonishing 15 years younger, resulting in a profound transformation where multiple signs of visible ageing is dramatically reduced.

TWO TECHNOLOGIES COMBINED

GARDENIA GRANDIFLORA STEM CELLS

These stem cells possess extraordinary regenerative powers that enable the plant to flourish in even the harshest climates. Now, an exclusive biotech process distills the stem cells into a pure, stabilised elixir to help recharge essential skin cellular energy.

CELLEFFECT 24 COMPLEX

Determined to amplify the stem cells' powers, ARTISTRY® scientists invented the next generation CellEffect24 Complex, enriched with 24 carat gold, plus precious Cardiolipin. Skin's energy is recharged, actually boosting the skin's energy index by up to 68 times*

THE RESULT

Weak skin cells are re-energised and re-synchronised to restore the proper cycles for repair and 24-hour regeneration.

BEFORE

Skin cells show minimal red fluorescence indicating a low number of cell's energy sources.

AFTER

Skin cells show enhanced red fluorescence reflecting an increase in cell's energy sources.
